

# LOKSEAM®

Standing Seam Roof System

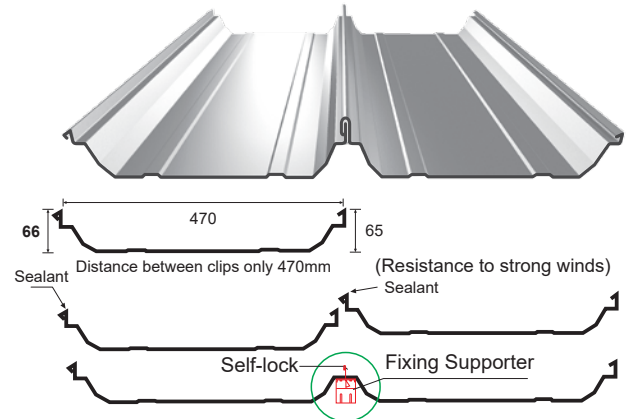

BY EFTCO  
**NORDIC**  
S T E E L

- A Concealed Fixing type; **no screw fixing** for roof sheet to purlin; **no water leak**.
- Full **SINGLE PIECE** roof length upto **120m** with no end lap joints.
- Safe in strong typhoon upto a wind speed of **300km/hr**.
- No overflow even with **3% roof slope**.
- Heat expansion **NOT** transferrable to purlin due to Clip: extra safety factor.
- A weather proof system: resulting in **no air leak**; savings in air-conditioning.
